9:00 – 11:30 am

Location: Monterey Conference Center

#### Agenda and Presenters

<b>9:00</b>	Welcome and Announcements - CCJDC Chairs
<b>9:10 – 9:20</b>	<p><b>Greg Benoit, GIS Specialist, California Coastal Commission and CCJDC Chair</b></p> <p>The recent acquisition of color orthoimagery for the Central Coast region has been a long-time goal of the CCJDC. Greg will provide the background for the project along with an introduction to the goals of the workshop.</p>
<b>9:20 – 10:00</b>	<p><b>Rich Semple, GIS Coordinator, City of Monterey</b>  <b>Brian Fulfroost, GIS Manager, UC Santa Cruz GIS Lab and CCJDC Chair</b></p> <p>The City of Monterey is one of the participants in the orthoimagery project. Rich will demonstrate some of the ways the City will be using its imagery.</p> <p>Brian will also present a variety of imagery applications and will describe the storage and delivery of region-wide imagery.</p>
<b>10:00 – 10:15</b>	<b>Break</b>
<b>10:15 – 10:45</b>	<p><b>Orthoimagery Subcommittee of the CCJDC</b></p> <p>During the delivery phase of the imagery project, the members of the Orthoimagery Subcommittee worked to review the products. When errors or inconsistencies were found, imagery was returned to the vendor for correction or adjustment. This has been a significant level of effort for the Subcommittee, and one that has insured a better product for all the participants.</p> <p>This panel session will focus on the quality control / quality assurance process of the imagery project, describing the issues discovered and their resolution. The session will be of great value to all current and future participants to the orthoimagery projects of the CCJDC.</p>
<b>10:45 – 10:55</b>	<b>Break</b>
<b>10:55 – 11:30</b>	<p><b>Orthoimagery Subcommittee of the CCJDC</b></p> <p>The panel session will continue, with opportunity for questions and answers.</p>
<b>11:30</b>	<b>Closing Comments, Announcements and Adjournment</b>
