

The Central Coast Joint Data Committee Presents
METADATA WORKSHOP

Wednesday, 18 June 2003

1st Session: 10:00 am – 12:00 pm

2nd Session: 1:30 pm – 3:30 pm

University of Santa Cruz
Long Marine Laboratory
Santa Cruz, CA

WHO:

The Central Coast Joint Data Committee and AMBAG, in cooperation with UC Santa Cruz, the Federal Geographic Data Committee (FGDC), and the California Resources Agency CERES Program.

WHAT:

Hands-on training in FGDC-compliant metadata development, using California's on-line metadata program, CERES.

Attendees will be briefed on the FGDC metadata standard for digital geospatial data and various approaches to metadata development. The bulk of the two hour training period will be spent with each individual developing actual FGDC-compliant metadata and metadata catalogs using CERES. The training will include substantial coverage of CERES tools to import and export XML metadata from GIS software.

WHO SHOULD ATTEND:

All individuals creating, maintaining or using data; particularly spatial data often used in GIS, although any data can be addressed.

AVAILABLE SEATS:

Space is limited to 16 computer seats. At most, we can accommodate 32 people if they are willing to share computers. Sign up now!
