12:00 - 12:50 Lunch - Buffet Lunch (vegetarian and omnivore options available)

1:00 - 2:15 Session III: New Techniques for Controlling Invasive Weeds

Ken Moore - *Slaying the Giants, eradicating eucalyptus and other big weeds.*

Casey Stewman - *Use of Integrated Vegetation Management by Santa Cruz County along roads.*

John Knapp - *Use of feral pig eradication design for application to eradicate invasive plants.*

2:15 - 2:25 Break

2:25-3:00 Session IV: Poster Session

Craig Alford, John Cantion, and Ronnie Turner (DuPont Land Management) - *Rimsulfuron, a new herbicide label for cheatgrass control*

Rebecca R. Buenafe and Darren R. Sandquist (California State University at Fullerton) - *Effects of disturbance of biological soil crusts on the emergence of exotic plants in California sage scrub.*

John Cantion (Dupont Land Management) - *A technical review of a new DuPont herbicide candidate (MAT 28) for invasive plant control.*

William Collins (Fort Ord - BRAC) - *Title TBD*

Amy Concillo and Micheal Loik (Department of Environmental Studies, University of California, Santa Cruz) - *Effects of changing climatic and edaphic conditions on Bromus tectorum invasion in the eastern Sierra Nevada.*

Craig and Sue Dremann (Dremann's Weed Haiku) - *A Weed Art Piece*

Heather McGray, Marlyse Lombardo, and Katharine N. Suding (UC Irvine) - *Interactive effects of population genetic diversity and resident community composition on the success of an annual exotic invasive species.*

Ken Moore (Wildands Restoration Team) **and Carla Bossard** (Biology Dept., St. Mary's College of California), - **Sinapsis alba seed meal as a pre-emergent control for French broom (*Genista monspessulana*) seedlings.**

Jae Pasari (UC Berkeley) - *The interactive effects of nitrogen deposition and grazing on invader cover in serpentine grasslands.*

Jennifer Stern - *Title TBD*

And...more...

3:00 - 4:15 Concurrent Session V:

(A) Rules and Regulations

Bob Case and Kathryn White (Contra Costa County Ag Commissioners Office) - *Dept. of Pesticide Regulation, pesticide use monitoring inspection.*

Rick Miller (DOW AgroSciences) - *Milestone VP Plus Herbicide*

(B) Updates

An informal session for invasive weed news and updates.

4:15 - 4:30 Final Announcements & Goodbye

Field Trips

Thursday, November 13th, 2008

Sunset Beach State Park/Santa Cruz County

Tim Hyland will show us on-going projects that use herbicide, fire, hand tools, and volunteers to eradicate several coastal weeds such as iceplant, European beach grass, and non-native annual grasses to restore coastal dune habitat.

Saturday, November 15th, 2008

Michael Shaw Property in La Selva Beach

Michael Shaw will show us an on-going meadow restoration projects on his property and then treat the group to a BB-Q!
